# Captions
Made Easy

Real-time Closed Captioning for
a better connected World.

WHAT WE DO

Videolinq is a leader in adding human-generated
or automated captions, translations, and
transcripts to live video. Use any video source,
and add closed captioning in 60+ languages. Live
stream video + highly accurate captions to social
media and other streaming video platforms.

RECOGNITION

Ranked by Streaming Media Magazine among
"Top 100 Streaming Companies", and nominated
as "Best Automated Closed Captioning Solution",
Videolinq is rated by both Capterra and G2 in its
"Top Live Streaming" categories.

OUR PLATFORM

We have built a centralized workspace for teams to create captions, translation, and transcripts for live or recorded media in 60+ languages.

In addition, Videolinq can: **Multi-stream** to social media or other platforms, create and embed **custom players**, **protect streams** by geographical regions, **insert advertising**, use **moderated chat**, **insert graphics** and **e-commerce offers** to live streams, and collect valuable **audience statistics**.
